The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/777,918	Applicant(s) D'HERS ET AL.	
	Examiner SCOTT L. JARRETT	Art Unit 3624	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office Action is in response to Applicant's amendments filed November 17, 2008. Applicant's amendment amended claims 1-34. Claims 1-34 are pending.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, 25 and 26-33, drawn to method or system for evaluating accounts using different aggregation functions, classified in class 705, subclass 10.
- II. Claims 15-24 and 34-37, drawn to an interface for selecting and aggregating data members in a data cube, classified in class 705, subclass 7.

The inventions are distinct, each from the other because:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I system or method of evaluating first and second accounts using different first and second aggregation functions; Invention II is a system or method for providing an interface to select and aggregate one or more user-selectable elements using one or more aggregation functions. Invention I has separate utility in performing evaluating accounts. Invention II has separate utility as an interface for selecting and aggregating data members.

Further one Invention II does not require that account data be evaluated and/or aggregate, instead Invention II is directly to a general interface for aggregating user-selected data elements.

See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Groups I or II are not required for Groups I or II restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
